Subject Index

Abdominal sonography
  aggressive type fibromatosis, evaluating with color Doppler interrogation, 248
  complications of liver transplantation, 145
  diagnostic challenge, 55
  ventral/incisional abdominal wall hernia with urinary bladder component, 107
  See also Pelvic sonography
Ablation, radio frequency, using to treat malignancy, 88
Anencephaly, sonographic signs of neural tube and central nervous system defects, 347
Aneurysms
  pseudoaneurysms following breast biopsies, 32
  vein of Gaien aneurysmal malformation in twin, 242
Anomalies
  familial ureteropelvic junction obstruction, prenatal diagnosis, 316
  prenatal diagnosis of unilateral cerebellar hypoplasia, 120
  screening examinations in pregnancy, 224
  VACTERL and oculo-auriculo-vertebral spectrum complicated by oligohydramnios, 224
Assy microlithiasis, 192

Baker's cysts, lower extremity complex mass, 114
Biliary pseudolithiasis, in child, 360
Bladder, ventral/incisional abdominal wall hernia with urinary bladder component, 107
Brain
  lissencephaly, sonographic evaluation of, 299
  unilateral cerebellar hypoplasia, prenatal diagnosis, 120
Breast
  breast conservation therapy using breast brachytherapy, 287
  granular cell tumor, benign mimicker of breast carcinoma, 95
  malignant phyllodes tumor, 365
  pseudoaneurysms following breast biopsies, 32

Calcification
  azoospermia associated with testicular and pulmonary microlithiasis, 192
  scrotal calculi without hydrocele, 372
Cancer. *See* Malignancy
Cardiac malformation, Optison *vs.* agitated saline in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
Case studies
  aggressive type fibromatosis, evaluating with color Doppler interrogation, 248
  assisted reproduction and multiple pregnancy, increasing risks for heterotopic pregnancy, 258
  azoospermia associated with testicular and pulmonary microlithiasis, 192
  biliary pseudolithiasis in pediatric patient, 360
  congenital epulis, 255
  dacryocystocele, 36
  early endometrial cancer in postmenopausal woman, 24
  echinococcal liver cyst, 369
  endometrial placental site nodule/plaque with multiplaner reconstruction, 117
  fallopian tube cancer, 252
  familial ureteropelvic junction obstruction, 316
  fetal lung mass at 20 weeks gestation, 101
  gender abnormality, 188
  gyriform liver foci in chronic hepatic porphyria, 308
  hepatic endometriosis, relationship to estrogen receptors, 184
  jugular vein rupture caused by invasive squamous cell carcinoma, 239
  lissencephaly, sonographic evaluation of, 299
  lower extremity complex mass, 114
  malignant phyllodes tumor of breast, 365
  nonspecific palpable lump, 303
  Optison *vs.* agitated saline in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
  ovotestes in true hermaphrodite, 51
  pseudoaneurysms following breast biopsies, 32
  renal cell carcinoma extending from inferior vena cava into right atrium, 180
  scrotal calculi without hydrocele, 372
  tethered spinal cord, 171
  3D ultrasound to visualize trisomy 18 abnormalities in first trimester, 110
  tibial aplasia-ectrodactyly in nonautosomal dominant expression, 47
  transposition of the great arteries, 375
  trauma-induced testicular rupture, 379
  unilateral cerebellar hypoplasia, 120
  uterine artery embolization, 39
  VACTERL and oculo-auriculo-vertebral spectrum complicated by oligohydramnios, 175
  vein of Gaien aneurysmal malformation in twin, 242
  ventral/incisional abdominal wall hernia with urinary bladder component, 107

Central nervous system, sonographic signs of neural tube and central nervous system defects, 347
Cerebellum, unilateral cerebellar hypoplasia, prenatal diagnosis, 120
Cervix
  evaluating cervical length to predict preterm labor, lit review, 157
  evaluating pregnant cervix to predict preterm delivery, 166
Children
  biliary pseudolithiasis in, 360
  intussusception from sonographer perspective, lit review, 231
  pediatric navicular, exploratory study in four-year-old, 217
Cholelithiasis, diagnosing biliary pseudolithiasis in child, 360
Clinical efficacy, methods and effects of transducer degradation on image quality and clinical efficacy of diagnostic sonography, 3
Color Doppler
  aggressive type fibromatosis, 248
  complications of liver transplantation, 145
  early endometrial cancer in postmenopausal woman, 24
  fetal lung mass at 20 weeks gestation, 101
  image quality and clinical efficacy, 3
  pseudoaneurysms following breast biopsies, 32
  trauma-induced testicular rupture, 379
Conference, industry standards for prevention of work-related musculoskeletal disorders, 281
Congenital heart disease, Optison *vs.* agitated saline in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
Congenital malformations
  cystic adenomatoid malformation, 101
  gingival granular cell tumor, 255
  lissencephaly, 299
  neural tube and central nervous system defects, 347
  oral cavity mass, 312
  transposition of the great arteries, 375
  trisomy 18 abnormalities in first trimester, 110
  VACTERL and oculo-auriculo-vertebral spectrum complicated by oligohydramnios, 175
  vein of Gaien aneurysmal malformation in twin, 242
Contrast agent, Optison *vs.* agitated saline in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
Crystallography and gene helix discovery, interdisciplinary project, 340
Cystic adenomatoid malformation, prenatal diagnosis, 101
Cysts
  Baker's cysts, lower extremity complex mass, 114
  bone cyst, aneurysmal, nonspecific palpable lump, 303
  cystic adenomatoid malformation, 101
  dacryocystocele, prenatal diagnosis, 36
  hepatic endometriosis, relationship to estrogen receptors, 184
  popliteal cysts, lower extremity detects complex mass, 114
  See also Tumors

Dacryocystocele, prenatal diagnosis, 36
Deep venous thrombosis, lower extremity complex mass, 114
Diagnostic challenge, 55, 124, 382
Diagnostic medical sonography program
  constructing, 195
  creating master education plan for, 320
Doppler imaging
  aggressive type fibromatosis, 248
  early endometrial cancer in postmenopausal woman, 24
  fetal lung mass at 20 weeks gestation, 101
  image quality and clinical efficacy, 3
  left ventricle hypertrophy, 73
  liver transplantation, 145
  pseudoaneurysms following breast biopsies, 32
  trauma-induced testicular rupture, 379
Duplex imaging, liver transplantation complications, 145

Echocardiography
  left ventricle hypertrophy, 74
  transposition of the great arteries, 375
Ectopic pregnancy, assisted reproduction and multiple pregnancy, 258
Editorial, semantics of sonography profession, 337
Education
  construction of diagnostic medical sonography program, 195
  creating master plan for diagnostic medical sonography program, 320
  integrating work-based learning with academic classroom, 383
  interactive mock laboratory assessment of scanning ergonomics, 130
  interdisciplinary project on crystallography and gene helix discovery, 340
  laboratory exercises to help students actively learn physics concepts, 56
Edward Syndrome, using 3D ultrasound to visualize trisomy 18 abnormalities in first trimester pregnancy, 110
Elbow, anatomic, sonographic, and histology comparison of ulnar nerve, 16

Encephalocele, sonographic signs of neural tube and central nervous system defects, 347
Endometrial cancer, early, in postmenopausal woman, 24
Endometriosis, hepatic, relationship to estrogen receptors, 184
Endometrium
  endometrial cancer in postmenopausal woman, 24
  hepatic endometriosis, relationship to estrogen receptors, 184
  3D sonohysterographic demonstration of endometrial placental site nodule/plaque with multiplaner reconstruction, 117
Epulis, prenatal diagnosis of, 255
Erectile dysfunction, Peyronie's disease, 82
Ergonomics, scanning, interactive mock laboratory assessment, 130
Erratum, 139
Extremities, tibial aplasia-ectrodactyly in nonautosomal dominant expression, 47

Fallopian tube cancer, sonographic evaluation of, 252
Familial ureteropelvic junction obstruction, prenatal diagnosis, 316
Fibromatosis, aggressive type, evaluating with color Doppler interrogation, 248
Foot, pediatric navicular, exploratory study in four-year-old, 217
Franklin, Rosalind, and human genetics, 340

Gall bladder, biliary pseudolithiasis in child, 360
Genetics
  familial ureteropelvic junction obstruction, 316
  interdisciplinary project on crystallography and gene helix discovery, 340
Great arteries, transposition of the, 375
Gynecological malignancy, fallopian tube cancer, 252
Gynecomastia, ovotestes in true hermaphrodite, 51

Heart
  Optison *vs.* agitated saline in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
  See also Echocardiography
Hepatic endometriosis, relationship to estrogen receptors, 184
Hepatic porphyria, chronic, gyriform liver foci in, 308
Hermaphrodite, prenatal diagnosis of gender abnormality, 188
Hernia
  diagnostic challenge, 124
  incarcerated left inguinal hernia, 124, 129
  ventral/incisional abdominal wall hernia with urinary bladder component, 107
Heterotopic pregnancy, assisted reproduction and multiple pregnancy, increasing risks for heterotopic pregnancy, 258
Hydatid disease, sonographic evaluation, 369
Hydronephrosis, familial ureteropelvic junction obstruction, prenatal diagnosis, 316

Image quality, methods and effects of transducer degradation on image quality and clinical efficacy of diagnostic sonography, 3
Impotence, sonographic evaluation of Peyronie's disease, 82
Infectious disease, hydatid disease, 369
Infertility, male, azoospermia associated with testicular and pulmonary microlithiasis, 192
Intussusception in pediatric patient, from sonographer perspective, lit review, 231

Jugular vein rupture, caused by invasive squamous cell carcinoma, 239

Kidney
  familial ureteropelvic junction obstruction, prenatal diagnosis, 316
  renal cell carcinoma extending from inferior vena cava into right atrium, 180

Left persistent superior vena cava, Optison *vs.* agitated saline in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
Left ventricular diastolic function, evaluation of left atrial size and pressure as it relates to left ventricle diastolic measurements in patient with left ventricle hypertrophy, 73
Letters to Editor, 64, 137, 272, 392
Lissencephaly, sonographic evaluation of, 299
Liver
  echinococcal liver cyst, 369
  gyriform liver foci in chronic hepatic porphyria, 308
  hepatic endometriosis, relationship to estrogen receptors, 184
Liver transplantation, evaluation of complications of, 145
Lung mass, fetal lung mass at 20 weeks gestation, 101

Malignancy
  early endometrial cancer in postmenopausal woman, 24
  fallopian tube cancer, 252
  granular cell tumor benign as mimicker of breast carcinoma, 95
  malignant phyllodes tumor of breast, 365
  renal cell carcinoma extending from inferior vena cava into right atrium, 180
  using radio frequency ablation to treat, 88

Malignant phyllodes tumor of breast, 365
Membership survey, on value of credentialing and accreditation, 387
Menopause, early endometrial cancer in postmenopausal woman, 24
Microlithiasis, azoospermia associated with testicular and pulmonary microlithiasis, 192
Miller-Dicker syndrome, lissencephaly, sonographic evaluation of, 299
Multiple gestation
  assisted reproduction and multiple pregnancy, increasing risks for heterotopic pregnancy, 258
  vein of Gaien aneurysmal malformation in twin, 242

Neonatal diagnosis
  tethered spinal cord, 171
  See also Prenatal diagnosis
Neural tube defects, diagnosing in fetus, 347

Obstetrics. *See* Pregnancy
Oculo-auriculo-vertebral spectrum, VACTERL and oculo-auriculo-vertebral spectrum complicated by oligohydramnios, 175
Oligohydramnios, VACTERL and oculo-auriculo-vertebral spectrum complicated by oligohydramnios, 175
Optison *vs.* agitated saline, in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
Oral cavity mass, prenatal diagnosis of, 312
Ovaries, ovotestes in true hermaphrodite, 51

Pediatric emergency, intussusception from sonographer perspective, lit review, 231
Pediatric patient
  biliary pseudolithiasis in, 360
  intussusception from sonographer perspective, lit review, 231
  pediatric navicular, exploratory study in four-year-old, 217
Pelvic sonography, uterine artery embolization, 39
Penis, Peyronie's disease, 82
Peripheral nerves, anatomic, sonographic, and histology comparison of ulnar nerve at elbow, 16
Peyronie's disease, sonographic evaluation of, 82
Physics, using laboratory exercises to help students actively learn physics concepts, 56
Plantar fibromatosis, evaluating with color Doppler interrogation, 248
Popliteal cysts, lower extremity detects complex mass, 114
Pregnancy
  assisted reproduction and multiple pregnancy, increasing risks for heterotopic pregnancy, 258
  evaluating cervical length to predict preterm labor, lit review, 157
  evaluating pregnant cervix to predict preterm delivery, 166
  oral cavity mass, prenatal diagnosis, 312
  screening examinations in pregnancy, 224
  See also Prenatal diagnosis
Prenatal diagnosis
  central nervous system defects, 347
  congenital cystic adenomatoid malformation, 101
  congenital epulis, 255
  dacryocystocele, 36
  familial ureteropelvic junction obstruction, 316
  gender abnormality, 188
  neural tube defects, 347
  oral cavity mass, 312
  tibial aplasia-ectrodactyly in nonautosomal dominant expression, 47
  3D ultrasound to visualize trisomy 18 abnormalities in first trimester, 110
  transposition of the great arteries, 375
  unilateral cerebellar hypoplasia, 120
  using 3D ultrasound to visualize trisomy 18 abnormalities in first trimester pregnancy, 110
  VACTERL and oculo-auriculo-vertebral spectrum complicated by oligohydramnios, 175
  vain of Gaien aneurysmal malformation in twin, 242
  See also Neonatal diagnosis; Pregnancy

Radio frequency ablation, using to treat malignancy, 88
Radiotherapy
  breast conservation therapy using breast brachytherapy, 287
  complications of liver transplantation, 145
Renal cell carcinoma, extending from inferior vena cava into right atrium, 180

Screening
  familial ureteropelvic junction obstruction, 316
  pseudoaneurysms following breast biopsies, 32
  sonographic screening examinations in pregnancy, 224
Scrotum, scrotal calculi without hydrocele, 372
SDMS-JDMS CME tests
  breast conservation therapy using breast brachytherapy, 297
  complications of liver transplantation, 155
  image quality and clinical efficacy, 14
  left ventricle hypertrophy, 80
  neural tube and central nervous system defects, 347
  pediatric navicular, exploratory study in four-year-old, 222

radio frequency ablation in cancer treatment, 93
sonographic screening examinations in pregnancy, 229
Sinus, coronary, Optison *vs.* agitated saline in evaluation of dilated coronary sinus resulting from left persistent superior vena cava, 43
Sonographers
licensure for, 323
pediatric emergency, intussusception from sonographer perspective, lit review, 231
semantics of profession, 337
shortage of, 199
work-related musculoskeletal disorders, 281, 283
Sonography issues
continuing education on Internet, 60
licensure for sonographers, 323
membership survey on value of credentialing and accreditation, 387
need for sonographer by international assistance program, 125
sonographer shortage, 199
Sonohysterography, 3D sonohysterographic demonstration of endometrial placental site nodule/plaque with multiplaner reconstruction, 117
Spina bifida, sonographic signs of neural tube defects, 347
Spinal cord, prenatal diagnosis of tethered, 171

Testes
gender abnormality, prenatal diagnosis of, 188
ovotestes in true hermaphrodite, 51
trauma-induced testicular rupture, 379
Testicular microlithiasis, azoospermia associated with testicular and pulmonary microlithiasis, 192
3D ultrasound
endometrial placental site nodule/plaque with multiplaner reconstruction, 117
to visualize trisomy 18 abnormalities in first trimester pregnancy, 110
Tibial aplasia-ectrodactyly in nonautosomal dominant expression, implications in prenatal sonology diagnosis, 47
Transducer degradation, methods and effects on image quality, 3
Transposition of the great arteries, identifying with sonography, 375
Transvaginal sonography
early endometrial cancer in postmenopausal woman, 24
evaluating cervical length to predict preterm labor, lit review, 157
Trisomy 18
3D ultrasound visualization of trisomy 18 abnormalities in first trimester pregnancy, 110
True hermaphrodite
gender abnormality, prenatal diagnosis of, 188
ovotestes in, 51
Tumors
aggressive type fibromatosis, 248
granular cell tumor, benign as mimicker of breast carcinoma, 95
jugular vein rupture caused by invasive squamous cell carcinoma, 239
malignant phyllodes tumor of breast, 365
nonspecific palpable lump, 303
prenatal diagnosis of congenital epulis, 255
renal cell carcinoma extending from inferior vena cava into right atrium, 180
using radio frequency ablation to treat, 88
uterine artery embolization, 39
See also Cysts
Ulnar nerve at elbow, anatomic, sonographic, and histology comparison, 16
Ureteropelvic junction obstruction, prenatal diagnosis of familial, 316
Urinary tract, familial ureteropelvic junction obstruction, prenatal diagnosis, 316
Uterus
endometrial cancer in postmenopausal woman, 24
3D sonohysterographic demonstration of endometrial placental site nodule/plaque with multiplaner reconstruction, 117
uterine artery embolization, 39

VACTERL, rare case of VACTERL and oculo-auriculo-vertebral spectrum complicated by oligohydramnios, 175
Vascular malformation, vein of Gaien aneurysmal malformation in twin, 242
Vein of Gaien aneurysmal malformation in twin, 242
Ventral/incisional abdominal wall hernia, with urinary bladder component, 107

Walker-Warburg syndrome, lissencephaly, sonographic evaluation of, 299
Work-related musculoskeletal disorders
ergonomic design for, 283
industry standards for prevention of, 281
